

ACTIONS IN COMBAT

ATTACK

You make a melee or ranged weapon attack.

CAST A SPELL

You cast a cantrip or a spell of 1st level or higher. See the spell's casting time.

DASH

You gain extra movement equal to your speed (plus any modifiers) for the current turn.

DISENGAGE

Your movement doesn't provoke opportunity attacks for the rest of the turn.

DODGE

Until the start of your next turn, any attack roll made against you has disadvantage if you can see the attacker, and you make Dexterity saving throws with advantage. You lose this benefit if you are incapacitated or if your speed drops to 0.

HELP

You help one creature with a task, giving that creature advantage on the next ability check it makes for that task. Or you distract one creature within 5 feet of you, and the next attack roll that an ally of yours makes against that creature has advantage.

Whichever option you choose, the advantage goes away once used or when your next turn starts.

HIDE

You make a Dexterity (Stealth) check in an attempt to become hidden—unseen and unheard.

READY

You wait for a particular circumstance before you act, which lets you act using your reaction before the start of your next turn. You must decide in advance (a) what perceivable circumstance will trigger your reaction and (b) the action you will take in response to that trigger.

If you ready a spell, it must have a casting time of 1 action, and you must concentrate on it until you release it.

SEARCH

You make a Wisdom (Perception) check or an Intelligence (Investigation) check to find something.

USE A MAGIC ITEM

You use a magic item that requires your action for its use.

USE AN OBJECT

You use an object, other than a magic item, that requires your action for its use.

USE A SPECIAL ABILITY

You use a class feature or other special ability that requires your action for its use.

LONG JUMP

Move 10+ feet, and then jump a number of feet up to your Strength score. When you make a standing long jump, you can leap only half that distance.

HIGH JUMP

Move 10+ feet, and then jump a number of feet equal to 3 + your Strength modifier. When you make a standing high jump, you can jump only half that distance.

CONCENTRATION

If a spell must be maintained with concentration, its description specifies how long you can concentrate on it. You can end concentration at any time (no action required). The following factors can break your concentration:

- You start casting another spell that requires concentration.
- You take damage. Succeed on a Constitution saving throw to maintain your concentration, with a DC equal to 10 or half the damage you take, whichever number is higher.
- You're incapacitated or killed.
- You're overwhelmed by an enormous distraction, such as a wave crashing into you. Succeed on a DC 10 Constitution saving throw to maintain your concentration.

THINGS YOU CAN DO ON YOUR TURN

- Move up to your speed.
- Take one action.
- Communicate with speech, gestures, or both.
- Interact with one object or feature of the environment as you move or take your action. To interact with a second object, take the Use an Object action.
