# **Green Slime**

# Medium Ooze (Hazard)

Green slime is a dangerous, unintelligent variety of normal algae that forms in moist subterranean environments. Bright green, wet, and sticky, it clings to walls, floors, and ceilings in patches. This plant is a slow-growing hazard that feeds on flesh, plant matter, and metal.

**Detect:** It takes a DC 10 Wisdom check to notice the green slime under normal conditions and a DC 12 Intelligence check to identify the hazard for what it is.

Effect on Creatures: The slime can detect the air vibrations and temperature of living creatures. When it does, a sheet of it large enough to envelop the passing creature drops from its resting place onto the target. The target must make a DC 12 Dexterity saving throw to avoid the sheet, making the saving throw with disadvantage if the slime was unnoticed or not considered to be a hazard. On a failed save, the target takes 1d6 acid damage, and takes another 1d6 acid damage at the end of each of its turns during which it is still in contact with the slime.

A creature that steps in a patch of green slime on the floor receives no saving throw to avoid taking damage.

**Effect on Objects:** Against wood or metal, green slime deals 2d6 acid damage per round, dissolving about an inch thickness of material each round. Green slime does no harm to stone or glass.

**Countermeasures:** Green slime can be scraped off or killed by taking 11 damage or more from weapons, cold, or fire. Dealing damage to the slime also deals half damage to the creature it is covering.

Some trolls have the following trait.

**Loathsome Limbs:** If the troll takes 15 or more damage from a single attack or effect, roll a d20 and consult the table below.

d20	Result
1-10	No additional effect.
11-18	One of the troll's limbs (determined randomly)
	is severed.
19–20	The troll is decapitated but not killed.

The troll loses the attack appropriate to the lost body part until it has regenerated at least 15 hit points (at which point it sprouts a replacement) or until it uses an action to pick up and reattach its severed body part.

A severed body part has AC 9, 5 hit points, a speed of 5 feet, and the troll's Regeneration trait. Severed limbs are considered blinded if the troll's head cannot see them. Each severed part acts on the troll's initiative and can make a bite attack (if it's the head) or a claw attack (if it's a limb) as an action. If a severed body part regenerates 66 hit points or more, it becomes a whole new troll.

# **TRAITS**

**Immunities:** The vampire is immune to disease, necrotic, poison, and nonmagical weapons (except those made of cold-forged iron). It cannot be charmed, paralyzed, or put to sleep. It does not need to breathe.

Mist Form: If the vampire is reduced to 0 hit points or fewer while not in its coffin, it polymorphs into a cloud of mist. While in mist form, the vampire does not regenerate, cannot take actions, and cannot be damaged (but is destroyed instantly by natural sunlight or a turn undead effect). It gains a fly speed of 20 feet and can squeeze through tiny cracks and openings. If a vampire in mist form starts its turn in its coffin, it returns to its normal form with 1 hit point.

**Regeneration:** At the start of its turn, the vampire regains 2d10 hit points. If it takes radiant damage, the vampire's regeneration does not function on its next turn.

**Spider Climb:** The vampire can climb on smooth walls and upside down on horizontal surfaces.

**Vulnerability:** The vampire is vulnerable to radiant damage and takes 10 radiant damage each time it starts its turn in direct sunlight.

## **ACTIONS**

**Multiattack:** The vampire makes two +4 bastard sword attacks.

Melee Attack—+4 Bastard Sword: +10 to hit (reach 5 ft.; one creature). Hit: 24 (3d10 + 8) slashing damage, and if the target is lawful good cleric, it must make a DC 17 Constitution saving throw. Failed Save: The target is paralyzed until the end of its next turn.

**Melee Attack—Bite:** +6 to hit (reach 5 ft.; one creature). *Hit:* 6 (1d4 + 4) piercing damage and 10 (3d6) necrotic damage, the target's hit point maximum is reduced by an amount equal to the necrotic damage dealt by this attack, and the vampire regains hit points equal to the amount of necrotic damage dealt.

The reduction to the target's hit point maximum lasts until the target takes a long rest. A creature whose hit point maximum is reduced to 0 by this attack dies. A living creature that is killed by the vampire's bite rises as a vampire under the original vampire's control on the next night after burial or interment in a tomb.

**Change Shape:** The vampire polymorphs into a Tiny bat and can remain in this from for up to 24 hours. While in bat form, it cannot make attacks and has a normal speed of 5 feet and a fly speed of 40 feet. Reverting to its true form requires an action.

**Domination:** The vampire chooses one living humanoid it can see within 10 feet of it. The target must make a DC 13 Wisdom saving throw. *Failed Save:* The target is charmed for 1 day or until the vampire or one of its allies harms it. While the target is charmed, the vampire can decide the target's action and how it moves. On target's next turn, it does as the vampire commands. A creature charmed by a vampire in this way receives the commands even if the vampire cannot see it. The charmed creature cannot take reactions.

The vampire can have only one creature charmed at a time. If the charmed creature takes any damage, it can make a DC 13 Wisdom saving throw to end the effect.

A creature charmed by this effect remembers being charmed. A creature that succeeds on its saving throw against this effect is immune to this vampire's domination effect for 24 hours.
